

General Rules of the AeQuilibrium Beach Volley Marathon®

Participation implies the understanding and acceptance of the following rules

Main Rules of the Tournament

- The 2x2 categories may use a reserve to substitute a main player only at the beginning of a match, or if a player is injured; the reserve may substitute the player at any time during the match, but only once.
- The 3x3 and 4x4 categories may use two reserves per team. In this case, the substitutions can occur without a formal request to the referee, when the game has been stopped and for an unlimited number of times.
- The team formation must be according to the athletes' list. Any changes to the athletes' list shall be made directly at check-in. If the players in the court are not the same of the team formation, the team will be immediately expelled from the tournament, without the awarding of any prize money and without repechages.
- Athletes who are already part of one team cannot play for other teams in the same category.
- Each team must enter the court with its own volleyball.
- If a final scoreboard (or a 3x3 or 4x4 Mixed category) has less than 32 teams registered, the prize money will be canceled and will not be cumulated with the prize money of other categories.
- Teams will not be allowed to start or continue a match if they have fewer players than those set for their category. If there are no reserve players and the number of the athletes of a team is lower than the one set for the category, the match will be suspended and the opposing team will win the game. In this case, the opposing team gains the points needed to win the set; the incomplete team, instead, keeps the points gained at the time of the suspension.
- The court is changed after every seven points (or every five if the set is played to 15 points).
- Each team may ask for a 30 second time-out per game.
- Even though there are no fixed positions for the players on the court, or rotations (all players in every position of the court can block and/or attack), the service order must always be kept during each match. At the moment of the service, all players must be inside the court, except for the player serving.
- The player has five seconds to serve after the referee blows the whistle; if the ball is served before the whistle the serve is to be repeated.
- If the ball, after being tossed or left by the serving player, lands without touching the serving player, or is caught by the serving player, this is considered as an attempt to serve and, consequently, the action is lost. During the service, the ball can touch the net while crossing it.
- If two opponents touch the ball over the net at the same time ("Held ball"), the game can continue (which means that the whistle will not be blown for the double fault).
- The ball can be touched with any part of the body. Each team is allowed to hit the ball a maximum of three times to send it to the other side.
- The player can touch the ball even over the net, when blocking, as long as he does not interfere with the opponents' moves before or during their offence. The blocking team will have only two more hits after a blocking contact. Any player may touch the ball first after a block; this also includes the player that touched the ball to block it.
- The ball must be hit clean and not held. Exceptions may occur for defensive actions if the ball is going very fast. In this case the ball can be held on the hands for a moment.
- The served ball can be received in forearm pass (bump); in this case contact with the ball must be clean, like any other bump.
- The ball sent over to the opponents' side of the court must go over the net within the crossing space allowed. The crossing space is the part of the vertical plane of the net limited, below, by the top of the net and, at the sides, by the antennas (even if imaginary) and their projection.
- Players can enter the opponents' court and/or the free zone as long as this does not interfere the opponents' play.
- The team-mate(s) of the player that is serving must not obstruct the opponents' view of the server and the trajectory of the ball; if asked to move, they must do it.
- It is considered a fault when a player hits strong during a set and the ball does not follow the flight path trajectory of the shoulder line, unless the ball is intended to a team player and ends by mistake in the opponents' court.
- It is considered a fault when a player hits strong the ball with an open hand (shot) to attack. However, you can poke the ball with your fingers (cobra), or poke the ball with your knuckles (camel toe). In any case, contact with the ball must be clean.
- Players must play barefoot, unless otherwise authorized by the referee.
- If there is an external interference (e.g.: a ball on the court) the game will be interrupted and the action repeated.

- In case of injury, in the absence of reserves, the injured player is given a medical injury time-out of 5 minutes from the arrival on the field of the medical staff. The Tournament Director, called to check the extent of the injury, may give the injured player an additional recovery time of 10 minutes, in the spirit of "fair play" that must distinguish each match.

Note: for all that has not been explicitly stated here, the rules of the international beach volleyball game will be valid. During the tournament the organization is authorized to make, at its own discretion, corrections and/or changes to the General Rules above.

Team formation and athletes' list

Team formation is decided by entering the names of the athletes at registration. Any changes to the team formation and the athletes' list (e.g.: replacing/adding new athletes, variation in the required data and uploading of medical certificates) can always be made following these steps:

- After registration by sending an email to the organizing office with your request (bvm@radunisportivi.it);
- Asking for the change at check-in.

An athlete can also be added during the qualifying matches with a formal request to the Director of the tournament who, after verifying the regularity of the request, will update the team formation, provided that the new athlete has not already played matches in the same game category. One athlete only can be added to the 2x2F/M/MT categories and up to two athletes for the 3x3 M/F and 4x4 MT categories, without surpassing the limit of the possible reserves, considering that no changes are allowed.

Attention: if the players in the court are not the same of the team formation, the team will be immediately expelled from the tournament. The expelled team will have no refund rights or any awarding of money prize.

2x2 M/F categories

The 2x2 M/F matches will take place on Friday and Saturday and will include a qualifying round (on Friday) and a final round (on Saturday) following a competition scoreboard with 32 teams with double elimination matches: after the first defeat the team will move to the losing scoreboard and will be eliminated after two defeats. The matches on Friday and Saturday will be played as a single set to 21 points, with a maximum of 23 points; the final matches only (1st -2nd and 3rd -4th places) will be played using the two out of three sets, to 21 points, with a maximum of 23 points and any third set will be played to 15 points with a difference of two points, without a score limit. In May, the best 64 teams of the qualifying round for both categories will access to the final round of Saturday, divided in two separate scoreboards: Gold (1st-32nd) and Silver (33rd-64th). In September, the best 32 teams of the qualifying round for both categories will access the final on Saturday.

2x2 Mixed categories

The 2x2 Mixed category matches are played on Sunday only, with a qualifying round following the double elimination method: after the first defeat the team will move to the losing scoreboard; after two defeats the team will be eliminated. The position of the teams will be assigned according to the registration date; there will be a maximum of 320 teams divided in competition scoreboards with 32 teams. The first four teams from each scoreboard will access the finals, provided a possible repechage. The position of the teams in the Final Scoreboard will be drawn. The final rounds are played with single elimination matches. All matches in the qualifying and final rounds (including the final matches) are played as a single set to 21 points with a maximum of 23. **Note:** Teams that should not show up, show up more than 5 minutes late of the scheduled time on the match report, or should be missing a team member will be declared defeated by default with a score of 0-21. As an exception to the above mentioned rule, teams with one or more athletes playing a match in a different category, at the same time of the beginning of the match, will be granted a 40-minute delay from the scheduled time on the match report. Beyond that time (40 minutes) the team will be asked by the Director of the Tournament to choose which match they will play in and, therefore, which match they will lose by default. Giving up a match will not entail an obligation of refund to the team by the organization of event. To make the organization of concurrent matches easier, in the final rounds of the 2x2 Mixed, 3x3M/F and 4x4 Mixed categories, the teams are kindly invited to let the Director of the Tournament know of any concurrent matches in due time.

3x3 M/F and 4x4 Mixed categories

The matches of the 3x3 M/F and 4x4 Mixed categories will take place on Saturday and Sunday and will include a qualifying round (on Saturday) in rounds of five teams. At the end of the qualifying round, for each category, a provisional ranking will be written based on the point difference gained by each team. With the same point difference, the best positions are assigned on the basis of the registration date, and in case of another tie with a drawing. The final round (on Sunday) will follow the above mentioned classification with single elimination matches up to the final. On Saturday and Sunday the matches are played in a single set to 21 points with a limit of 23; the final matches only (1st-2nd place) are played in a single set to 21 points with a difference of two points without a score limit. For the 3x3 M / F and 4x4 Mixed categories, the best ranked 768 teams in the qualifying round will access the final round, divided in four different scoreboards: Platinum (1st -192nd); Gold (193rd -384th); Silver (385th -576th); Bronze (577th -768th). In the event that a scoreboard of the final round will have less than 32 teams, those teams will be included in the scoreboard that precedes it, for example: Bronze Scoreboard with 30 registered teams will be included in the Silver Scoreboard. Note: please remember that for the 3x3 M/F and the 4x4 Mixed categories the final match for the 3rd and 4th place will not be played: the two losing semi-finalist teams will both be placed third and will be awarded the bronze medal and equal prize money.

Time schedule and match program

- 2x2 M/F categories: Friday (qualifying round) from 8.30 a.m. to 5.30 p.m.; Saturday (final round) from 8.30 a.m. and with final matches starting at 3.30 p.m.
- 2x2 Mixed category: Sunday (one day only) from 8.30 a.m. to 5.30 p.m., with final matches starting at 3.30 p.m.
- 3x3 M/F and 4x4 mixed categories: Saturday (qualifying round) from 8.30 a.m. to 6.30 p.m.; Sunday (final round) from 8.30 a.m. and with final matches starting at 5.00 p.m.

Note: the schedule of the final matches may be subject to variation.

Refereeing

Participating athletes will act as referees according to the tournament schedule available in the dedicated section of the "BeachVolleyMarathon App".

The final matches will be refereed by federal referees. All matches must be played in accordance with fair play values, athletes must accept the referee's decisions and be respectful of all the other participants and referees; otherwise the Director of the Tournament can decide, at their own discretion, to exclude the participant from the tournament without refund obligation.

Filling in the match reports

The participants refereeing the matches will have to fill in match reports. The final score of the match must be clearly legible and must be signed by both teams in acceptance. In case of non-authentication, the final result of the match will still be considered valid and hence registered. Note: Those match reports that do not allow a clear assignment of the result due to incomplete, false or illegible data will not be taken into consideration.

Verifying the results of the qualifying rounds

For the 3x3 M/F and 4x4 mixed categories, teams must verify the accuracy of the final results of their matches displayed in the dedicated section of the "BeachVolleyMarathon" App. The results of the morning matches (8.30 a.m. - 1.00 p.m.) have to be checked before 2.00 p.m.; the results of the afternoon matches (1.30 p.m. - 6.00 p.m.) before 7.00 pm.

After those times no correction request of the results will be accepted.

Matches won and lost by default

In the qualifying rounds of the 3x3 M/F and 4x4 Mixed categories, the results of the matches ended by default will be assigned to the losing team with a score of 0 points made and 21 points taken. The score will determine the point difference of the provisional ranking. However no points will be assigned and counted to teams winning the match by default.

Final round: program and refereeing

The rankings for the 3x3 M/F and 4x4 Mixed categories, at the end of the qualifying rounds, will be available from 9 p.m. on Saturday, in the dedicated section of the BeachVolleyMarathon App, where it will also be possible to consult the schedule of the matches and the refereeing assigned for the final round of all categories.

Management of delays and concurrent matches

Teams that should not show up, show up more than 5 minutes late of the scheduled time on the match report, or should be missing a team member will be declared defeated by default with a score of 0-21. As an exception to the above mentioned rule, teams with one or more athletes playing a match in a different category at the same time of the beginning of the match, will be granted a 40-minute delay from the scheduled time on the match report. Beyond that time (40 minutes) the team will be asked by the Director of the Tournament to choose which match they will play in and, therefore, which match they will lose by default. Giving up a match will not entail an obligation of refund to the team by the organization of event. Note: to make the organization of concurrent matches easier, in the final rounds of the 3x3M/F and 4x4 Mixed categories, the teams are kindly invited to let the Director of the Tournament know of any concurrent matches in due time.

Tournament tank top

For the final rounds and for all the other matches played in the central arena, athletes must wear the official Aequilibrium Beach Volley Marathon® tank top (handed at the time of the check-in in Bibione). Should any team not comply, they will lose the match by default and will not be awarded any prize money.

Unfavourable weather conditions and other external events

The event will take place in any weather condition. Obviously, in case of particularly adverse weather conditions (or other external events) the Director of the Tournament can decide to suspend the matches once, or more than once, and to resume them when the external conditions will allow it. The match will resume with the same score it had at the time of the suspension.

For the 2x2 categories:

- in the event of a permanent suspension of the qualification round matches, the placements of the teams still in the game, that have not been assigned yet, will be decided according to the registration date or, in case of a tie, with a drawing. In the event of not being able to play all the qualifying round matches, the ranking will be decided according to the registration date or, in case of a tie, with a drawing.
- In the event of a permanent suspension of the final round matches, for each related scoreboard, the prize money, except for the part that may have already been awarded, will be equally divided among the remaining teams, still in the game at the

time of the suspension, except when the amount of the award to be assigned to each team will be less than 50.00 euros per team.

For the 3x3 and the 4x4 categories:

- In the event of a permanent suspension of the qualifying round matches, the provisional rankings will be decided according to the results of each team at the time of the suspension. The teams, that may have not played any match, will be assigned by default a point difference equal to the average of the points calculated on the matches played in their category; in case of an equal point difference, the ranking position will be decided according to the registration date or, in case of a tie, with a drawing. In the event of a permanent suspension of the qualifying round matches, the prize money for each category will be equally divided among the scoreboards, according to the percentages applied to the different positions in the ranking.
- In the event of a permanent suspension of the final round matches, for each related scoreboard, the prize money, except for the part that may have already been awarded, will be equally divided among the remaining teams, still in the game at the time of the suspension, except when the amount of the award to be assigned to each team will be less than 50.00 euros per team.

Awards

For the 2022 edition, the tournament will award a total prize of up to 108,000.00 euros, divided as follows: 72,000.00 euros for the May event, and 36,000.00 euros for the September event. The amounts are intended as pre-tax (presently amounting to 20% according to article 30, Presidential Decree 600/ 1973) and will be paid out at the end of the tournament, after filling out a receipt. In the event that a single scoreboard in the final round should have less than 32 participating teams, the corresponding prize money will be annulled and will not be cumulative with any other prize money. Note: the prize must be collected by a team member with their personal ID and a tax code number within one hour of the end of the match for which the prize money is to be awarded. Any prize money not collected will be donated to the non-profit association: ONLUS SOS HANDICAP BAMBINI INVISIBILI

Attention: the indicated amounts will be assigned with an overall participation of at least 2500 teams for the May event and at least 500 teams for the September event. In the event that the total number of registered teams will be lower than the above mentioned numbers, the amounts of the prize money will be reduced proportionally to the sum of the teams registered (the teams registered on site will not be counted). In this case, the new money prize will be communicated the week before the beginning of the event.

Access is by reservation and for a limited number of people only. It includes free drinks for both evenings. Access to evening Spritz parties on the beach will not be allowed to people under 18. During the evening Spritz parties, the police, assisted by a huge security service, will make sure that everyone will follow the rules and regulations to protect and respect all the participants. The introduction of backpacks, bags or any other object considered dangerous, including any type of bottle and/or can, is forbidden. Only small belt bags and shoulder bags will be allowed. The objects that cannot be introduced in the area will be placed in unguarded storage at the entrance of the "party area". It is highly recommended not to enter the party area with valuables.

In case of particularly adverse weather conditions, the organizer can decide, at their own discretion, to suspend the evening beach parties without any refund. The full program of the evening activities will be available on the website www.spritzparty.it.

Following the complaints of accommodation managers for the excessively lively and noisy behaviours that have caused serious inconvenience to the tourists staying in Bibione, during the event it is not allowed to organize any gatherings or parties with loud music inside the assigned accommodation. Therefore, it is highly recommended to abide by the rules to avoid any police intervention and the resulting fines. We remind you moreover, that being turned away from your accommodation will result in the exclusion from the tournament without any refund from the organization.
